Make a gift today
in honour of a staff
member who made
a difference.

We will send a recognition card with your
message and a commemorative pin to the
individual of your choice.

Share your words of
thanks about a staff
member who made
a difference.

“I would like to express my greatest thanks
and appreciation to Dr. Rami Elias and the
wonderful nurses at William Osler Health
System – you all are brilliant! As a kidney
cancer patient, it made a big difference for
me to have a doctor who was an expert in
minimally-invasive surgery. The friendliness
and thoroughness of the staff, the care, and
even the food were all outstanding.”

Terry Fitzpatrick,
grateful patient

My words of thanks

Even if you can't make a donation today,
please share your experience with us.
Your chosen staff member will be informed
of your appreciation.

Your comments help us provide better
care, become better clinicians, and give our
patients the best possible outcomes.

How do I begin to thank you?

How can I express my thanks to you?

There is a meaningful way to say “thank you” for the excellent care you received, or to honour a caregiver – or an entire team of caregivers – who made a difference for you or a loved one.

Perhaps it was:

- An outstanding physician
- An extraordinary nurse
- A supportive therapist
- A superior technician or technologist
- A caring volunteer

All gifts support ongoing hospital programs, services and technologies for our patients and the community. By expressing your gratitude in this way, you help Osler provide the best possible care and services to others today and into the future.

Every dollar counts, every dollar makes a difference.

Choose the best giving option for you:

There are many ways to recognize and thank a caregiver in a meaningful way – monthly giving, annual contributions, legacy gifts – and we can help you discover the way of giving that’s right for you. Please visit our web site at oslerfoundation.org or call (416) 747-3388 for more options to say thank you.

Gifts made now, and in the future, will strengthen our capacity today and affect the health of generations to come.
